

HawkEye[®]

uncover the world below

D10D - Digital Depth Sounder

With auto-ranging and auto-sensitivity features the D10D is designed to give precise depth readings from 2.5 to 200 feet at speeds up to 63 mph. Algorithmic programming virtually eliminates false depth readings while EasyTouch™ Programming allows one-touch access to dual depth alarms. The full range Keel Offset adjusts depth readings for vessel draft. The oversized LCD reads depths in feet or meters, and uses SoftGlow™ backlighting for unmatched readability at night. The included combination transducer can be either transom-mounted or glued in-hull. Includes interchangeable black and white bezels and face plates, and also a sun cover to protect the LCD during storage. Backed by HawkEye's industry leading 2 Year Warranty.

Dims..... 2" Diameter, 1.75" Depth
Power Requirement..... 11-14 Vdc
Display Type..... Polarized LCD
Backlight..... Green SoftGlow
Units of Measure..... Ft/M

Range... 2.5' to 200' (.8 to 61 m)
Transducer..... Transom or Glue-In
Frequency..... 200 KHZ
Beam Angle..... 25 Degrees
Cable Length..... 30 ft (9.1 m)

D10DX - Digital Depth Sounder with Air/Water Temperature

The D10DX includes all the advanced sonar, depth alarm, and keel offset capabilities of the D10D, yet incorporates dual temperature displays. A simple press of a button gives instant access to water or air temperature readings via integrated sensors in both the transducer and head unit. Includes interchangeable black and white bezels and face plates, and also a sun cover to protect the LCD during storage. Backed by HawkEye's industry leading 2 Year Warranty. For optimal performance, choose between either a transom or thru-hull transducer.

Dims..... 2" Diameter, 1.75" Depth
Power Requirement..... 11-14 Vdc
Display Type..... Polarized LCD
Backlight..... Green SoftGlow
Units of Measure..... Ft/M

Range... 2.5' to 200' (.8 to 61 m)
Transducer...Transom or Thru-Hull
Frequency..... 200 KHZ
Beam Angle..... 25 Degrees
Cable Length..... 30 ft (9.1 m)

D10DX.01T - Transom Mount Transducer

D10DX.06T - Thru-Hull Transducer

D11S - Micro Digital Depth Sounder

With its completely waterproof construction, micro-display housing, and Shoot-Thru Sonar Technology, the D11S is as much at home ripping across a lake on a PWC, as it is searching for a secluded cove on a tender. This depth sounder's compact, surface mount, micro display housing can be easily mounted within reach on any vessel's dash, while EasyTouch™ Programming allows one-touch access to a built-in audible shallow water alarm. The included combination transducer can be either transom-mounted or glued in-hull. Displays readings in either feet or meters and includes an Auto-Off feature to prevent unwanted vessel battery drain. Backed by HawkEye's industry leading 2 Year Warranty.

Dims..... 2" x 1.1" (50 x 26 mm)
 Power Requirement.....11-14 Vdc
 Display Type..... Polarized LCD
 Backlight..... None
 Units of Measure..... Ft/M

Range... 1.5' to 99.9' (.8 to 30 m)
 Transducer..... Transom or Glue-In
 Frequency..... 200 KHZ
 Beam Angle..... 25 Degrees
 Cable Length..... 30 ft (9.1 m)

F33P - Portable Fish Finder

With dozens of exclusive features including WeedID®, mountable and side-scanable sonar sensor, and 4 user selectable sensitivity settings, the FF3355P is guaranteed to produce even bigger fish stories. The compact, palm-sized design fits in your tackle box, gear bag, or even in your pocket. It displays depth, fish, and bottom structure readings from 1.5 to 99.9 ft on a no glare, polarized VirtuView™ liquid crystal icon display. Fish are clearly revealed with an integrated fish identifier, depth scale, and 2 stage audible fish alarm. The multipurpose transducer can be tossed from the shoreline, dock bridge, boat, or can be transom mounted or placed in-hull on a boat, kayak or canoe; Fish From Anywhere, No Boat Required... Backed by HawkEye's industry leading 2 Year Warranty.

Dims.... 2.8" x 4.3" (71 x 109 mm)
 Batteries..... 4 x "AAA"
 Display Type..... Polarized LCD
 Backlight..... Green SoftGlow
 Units of Measure..... Ft/M

Range...1.5' to 99.9' (.8 to 30 m)
 Transducer..... Multipurpose
 Frequency..... 200 KHZ
 Beam Angle..... 25 Degrees
 Cable Length..... 35 ft (10.6 m)

H22PX - Handheld Sonar System

The trouble with most depth sounders is that they can only see what's in a fairly narrow cone directly under your boat. However, the ultra- light handheld H22PX lets you aim its beam wherever you want to see, like an underwater flashlight. One press of the button gives real time depth and fish readings, while another press will indicate the current water or air temperature. Algorithmic programming virtually eliminates false readings while Shoot-Thru Technology allows readings through ice and solid fiberglass or aluminum boat, kayak, or canoe hulls. The impact resistant housing includes a wrist strap and the unit floats if dropped overboard. Since its submersible to 200' you can use it as a range finder while snorkeling and diving. Backed by HawkEye's industry leading 2 Year Warranty.

Dims..... 7" x 2" (177 x 50 mm)
 Batteries..... 4 x "AA"
 Display Type..... Polarized LCD
 Backlight..... Green SoftGlow
 Units of Measure..... Ft/M, °F/°C

Range... 2.5' to 200' (.8 to 61 m)
 Transducer..... Integrated
 Frequency..... 200 KHZ
 Beam Angle..... 25 Degrees
 Waterproofing..... 200 ft (61 m)

IR101SP - Infrared Thermometer

Did you know that most water temperature meters take up to 1 minute to give you an accurate reading? The I10P delivers instant, touch-free temperature readings of any surface with wireless one-handed operation. Use it to take water temperature readings while racing to the fishing grounds; no matter how fast you're running. Instantly measure power head, riser, block temperatures or pinpoint water circulation problems. Check the bearing and brake temperatures of your trailer and avoid the unwanted hassles of improper lubrication or failed seals. Housing is impact and water resistant. Backed by HawkEye's industry leading 2 Year Warranty.

Dims..... 5" x 2.5" (134 x 63 mm)
 Battery..... 1 x A23 (included)
 Display Type..... Polarized LCD
 Backlight..... Green SoftGlow
 Units of Measure..... °F, °C

Accuracy..... +/- 2°
 Sensor Type..... Infrared
 Sensor Spread..... 5:1
 Waterproofing..... Splash Proof
 Temperature Readout....0 to 400°F

DS900SP - Sonic-Laser Scale SP

Sure, the DS900SP would be a great fishing scale if it only featured a solid state (no moving parts) scale mechanism capable of weighting fish up to 100 lbs, accurate to the nearest ounce. But, why stop there? The DS900SP also features patented laser guided ultrasound to allow touch-free fish length measurement. Just attach the fish to the stainless steel lip hook, touch the tail to a solid surface, and weight and length measurements are displayed on the LCD. Weighs up to 100 lbs (45 kg) in pounds/ounces and kilograms. Calculates fish length from 5 to 60 inches (13 to 154 cm). The lip hook pivots 360 degrees and a Tare feature allows offsetting the readings to accommodate weigh bags or containers. Backed by HawkEye's industry leading 2 Year Warranty.

Dims... 2.5" x 6.2" (66 x 157 mm)
 Battery..... 1 x 9 Volt
 Display Type..... Polarized LCD
 Backlight..... Silver High Intensity
 Units of Measure..... Lb/Kg, In/Cm

Fish Attachment..... SS Lip Hook
 Accuracy..... +/- 3%
 Wt. Range 1 oz to 100 lb
 Lg. Range 5 to 60"
 Waterproofing..... Splash Proof

DS900XP - Sonic-Laser Scale XP

The Sonic-Laser Scale XP incorporates all of the features of the DS900SP, but integrates advanced programming to take "catch and release" fishing to a whole new level. The DS900XP allows the user to pick the fish out of the water using a stress free lip grip, weigh the fish with a solid state digital scale, and measure the length using touch-free laser guided ultrasound. User programming input allows instant access to minimum and maximum weight and length requirements for tournament release guidance, or aids in compliance to local fishing regulations. The stainless steel lip grip securely holds the fish during measurement, while the integrated memory board and wax pencil keeps track of user settings. Backed by HawkEye's industry leading 2 Year Warranty.

Dims... 2.5" x 6.2" (66 x 157 mm)
 Battery..... 1 x 9 Volt
 Display Type..... Polarized LCD
 Backlight..... Silver High Intensity
 Units of Measure..... Lb/Kg, In/Cm

Fish Attachment..... SS Lip Grip
 Accuracy..... +/- 3%
 Wt. Range 1 oz to 100 lb
 Lg. Range 5 to 60"
 Waterproofing..... Splash Proof

SA500SP - SkierAlert® Wireless Water Sports Safety System

The SkierAlert® SP utilizes patented MarineLink® Technology to closely monitor a skier, wake boarder, tuber, etc, and even doubles as a man overboard detector. When the wireless safety Lanyard is attached to a life jacket or belt, the Base Station will immediately sound a 100 dB audible alarm when the signal from the Lanyard is submerged in water. The water resistant Base Station includes visual indicators and can be suction cup mounted to a windshield or hard mounted with screws. The Lanyard includes a belt clip attachment and is impact resistant and waterproof. Both units include a battery monitoring system to warn you of weak battery conditions. Backed by HawkEye's industry leading 2 Year Warranty.

Base Station

Dims..... 2.5" x 5.5" (63 x 140 mm)
Batteries..... 3 x 'AAA'
Waterproofing..... Splash Proof
Battery Life... 30 Hours Continuous

MarineLink Lanyard

Dims..... 3" x 1.5" (76 x 38 mm)
Batteries..... CR2032 (included)
Waterproofing..... Full Submersion
Battery Life... 30 Hours Continuous

D10D & D10DX - Accessories

Customized Depth Sounder Faces

BOAT BUILDERS AND DEALERS ONLY: *Imagine having your Company's identity affixed to the dash of every boat that you sell or service. The D10D & D10DX faces can be customized with logos, phone numbers, slogans, etc., to meet your specific marketing needs.*

Surface Mount Bracket (1000.10)

In-Dash Digital Depth Sounder Surface Mount Bracket. *Allows surface mounting of the D10D & D10DX. Made from UV resistant, high impact plastic. 360 degree swivel base allows for mounting on any vertical or horizontal surface.*

Gold Bezel (1000.20), Chrome Bezel (1000.22)

Add a custom look to the D10D and D10DX with these attractive Alloy Bezels. All are solid metallic alloy and are specially coated to withstand oxidation and corrosion.

Transducer - Accessories

8000.01 & 8000.01T

Combination Transom & In-Hull Transducer. "T" model is compatible with D10DX only.

8000.06 & 8000.06T

Plastic Thru Hull Transducer. "T" model is compatible with D10DX only.

8000.90

Transducer Extension Harness (30 ft)

8000.91

Transom Mount Bracket Kit *Replacement for 8000.01 & 8000.01T*

8000.95

2 Part Epoxy for In-Hull Transducer Mounting (8000.01).
